(paragraph 3.30(e))

*Offshore Petroleum and Greenhouse Gas Storage Act 2006*  
*Offshore Petroleum and Greenhouse Gas Storage (Safety) Regulations 2009*

**Notice Number: 354**

## IMPROVEMENT NOTICE

To: Esso Australia Pty Ltd

I, [REDACTED] an OHS inspector appointed under section 680 of the Act, am satisfied that the person named above as the responsible person, is contravening, or has contravened, and is likely to contravene :

(a) clause 10(2)(b) of Schedule 3 to the Act

at:

the Flounder facility.

The reasons for my opinion are:

An inspection conducted in January 2011 raised recommendation number 353-3 as follows:  
*Properly align and complete cowlings where the flow lines of wells A15, A16, A25 and A27 pass through the L2 / L3 splash wall.*

The inspection conducted on 15-17th November 2011 identified that alignment of flowlines and fitment of cowlings has not been completed. A review of records indicated that there is no Work Order number referenced that covered the complete scope of work (a work order was in place for the A6 flowline).

You are required to take action within **60** days of the date of this notice to prevent further contravention or likely contravention of the clause or regulation.

The following action must be taken by the responsible person within the period specified above:

- Properly align and complete cowlings where the flow lines of wells A15, A16, A25 and A27 pass through the L2 / L3 splash wall.

Signed: [REDACTED]

**OHS Inspector**
