Its all about prevention!

Working Together

How NOPSEMA Engages with HSRs

DURING AN INSPECTION

BEFORE AN INSPECTION

- Dates confirmed
- Inspection brief
- Onshore meeting

Powers to request NOPSEMA to conduct inspection

- Entry and Exit meetings
- Meet privately with HSRs (Safety, Environment and Well Integrity)
- Exit Brief
- Where necessary, enforcement action
- Entry and Exit meetings if available
- Meet privately with inspectors
- Power to accompany NOPSEMA during inspections
- Power to be present at NOPSEMA interviews with work group members

AFTER AN INSPECTION

- Draft of inspection report
- Onshore feedback meeting
- Copy of final inspection report to H&S committee or HSR for DWG if no committee

- HSRs can contact NOPSEMA focal point any time
 - Concerns
 - assistance/advice on legislation
 - HSR powers
 - Engaging with facility management

Communication

NOPSEMA
Australia's offshore energy regulator

 HSRs can contact their focal point outside of inspections for advice and guidance

INFORMED HSR

- Safety Page
 - HSRs Sign up now!
 - Resources
- Resources
 - Published Notices
 - The Regulator magazine
- Raise issues as they become apparent
 - To facility management
 - NOPSEMA focal point
 - NOPSEMA website

- Offshore Worker Mental Health Survey
 - Curtin University; University of Western Australia
 - Psychosocial impacts of COVID-19
 - Development of strategies that best support employee mental health and well-being.
 - Closed 9/08/21
 - 500 participants THANK YOU
 - Under analysis will report back

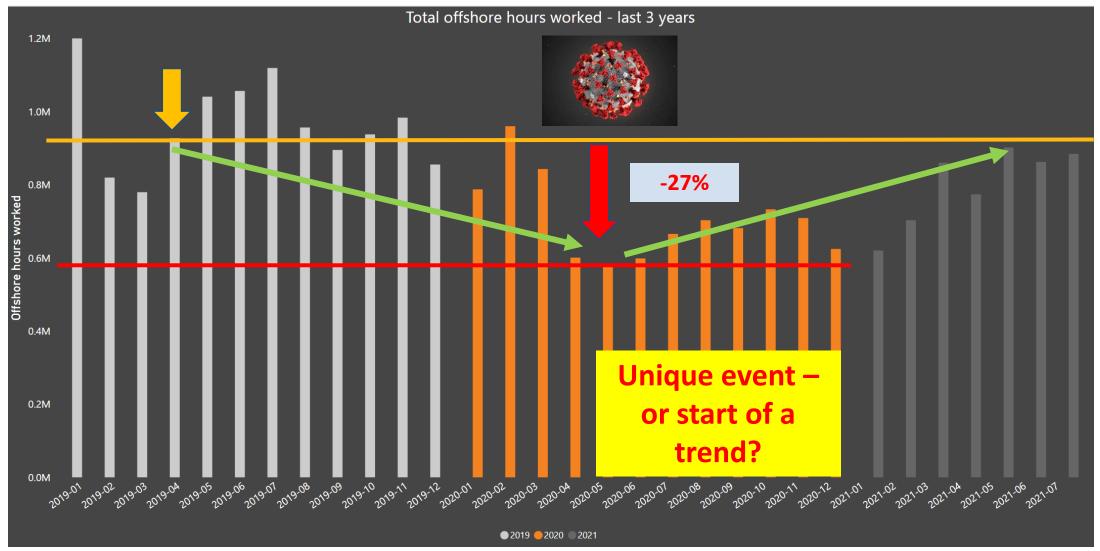

Deferred Maintenance

Deferred Maintenance – Australia offshore hours

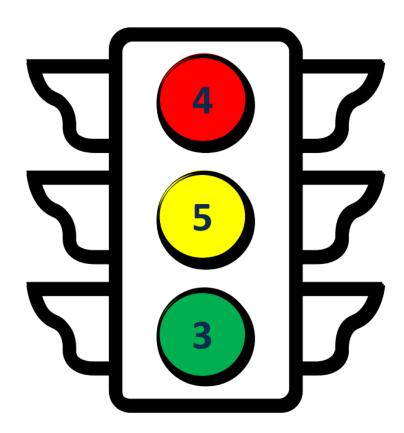

Deferred Maintenance

- The 'Effective Operator' uses maintenance deferral to ...
 - Respond to inevitable, but unplanned events (e.g. COVID)
 - Manage and mitigate risk
 - Prioritise activities (e.g. safety critical equipment)
 - Identify trends and respond proactively
 - Allocate resources effectively to reduce risk
- Maintenance deferral is not a tool to ...
 - Justify modifications to performance standards
 - Reduce safety critical assurance activities
 - Re-categorise equipment as non-safety critical
- Seeking better practices
 - Industry survey; engage industry
 - Targeted inspections
 - Work in progress
- What can you do?
