Hi all, thanks for the good discussion today with Eni.

Put notes from today's meeting with Eni Blacktip in the Level 2 running sheet, and also in Liaison register. Let me know if any points to add then I will share update with Safety:

Eni provided an update on their forward plan, **s 47 - commercial value**

Gas sample en route to Perth for composition analysis to determine gas source and corrosivity.

## s 47 - commercial value

NOPSEMA reiterated the fact that there are many unknowns to be reduced.

NOPSEMA raised concerns about the cement job [REDACTED] **s 47 - commercial value** [REDACTED] Eni to provide additional information to address NOPSEMA concerns about the way the cement job was verified. [REDACTED]

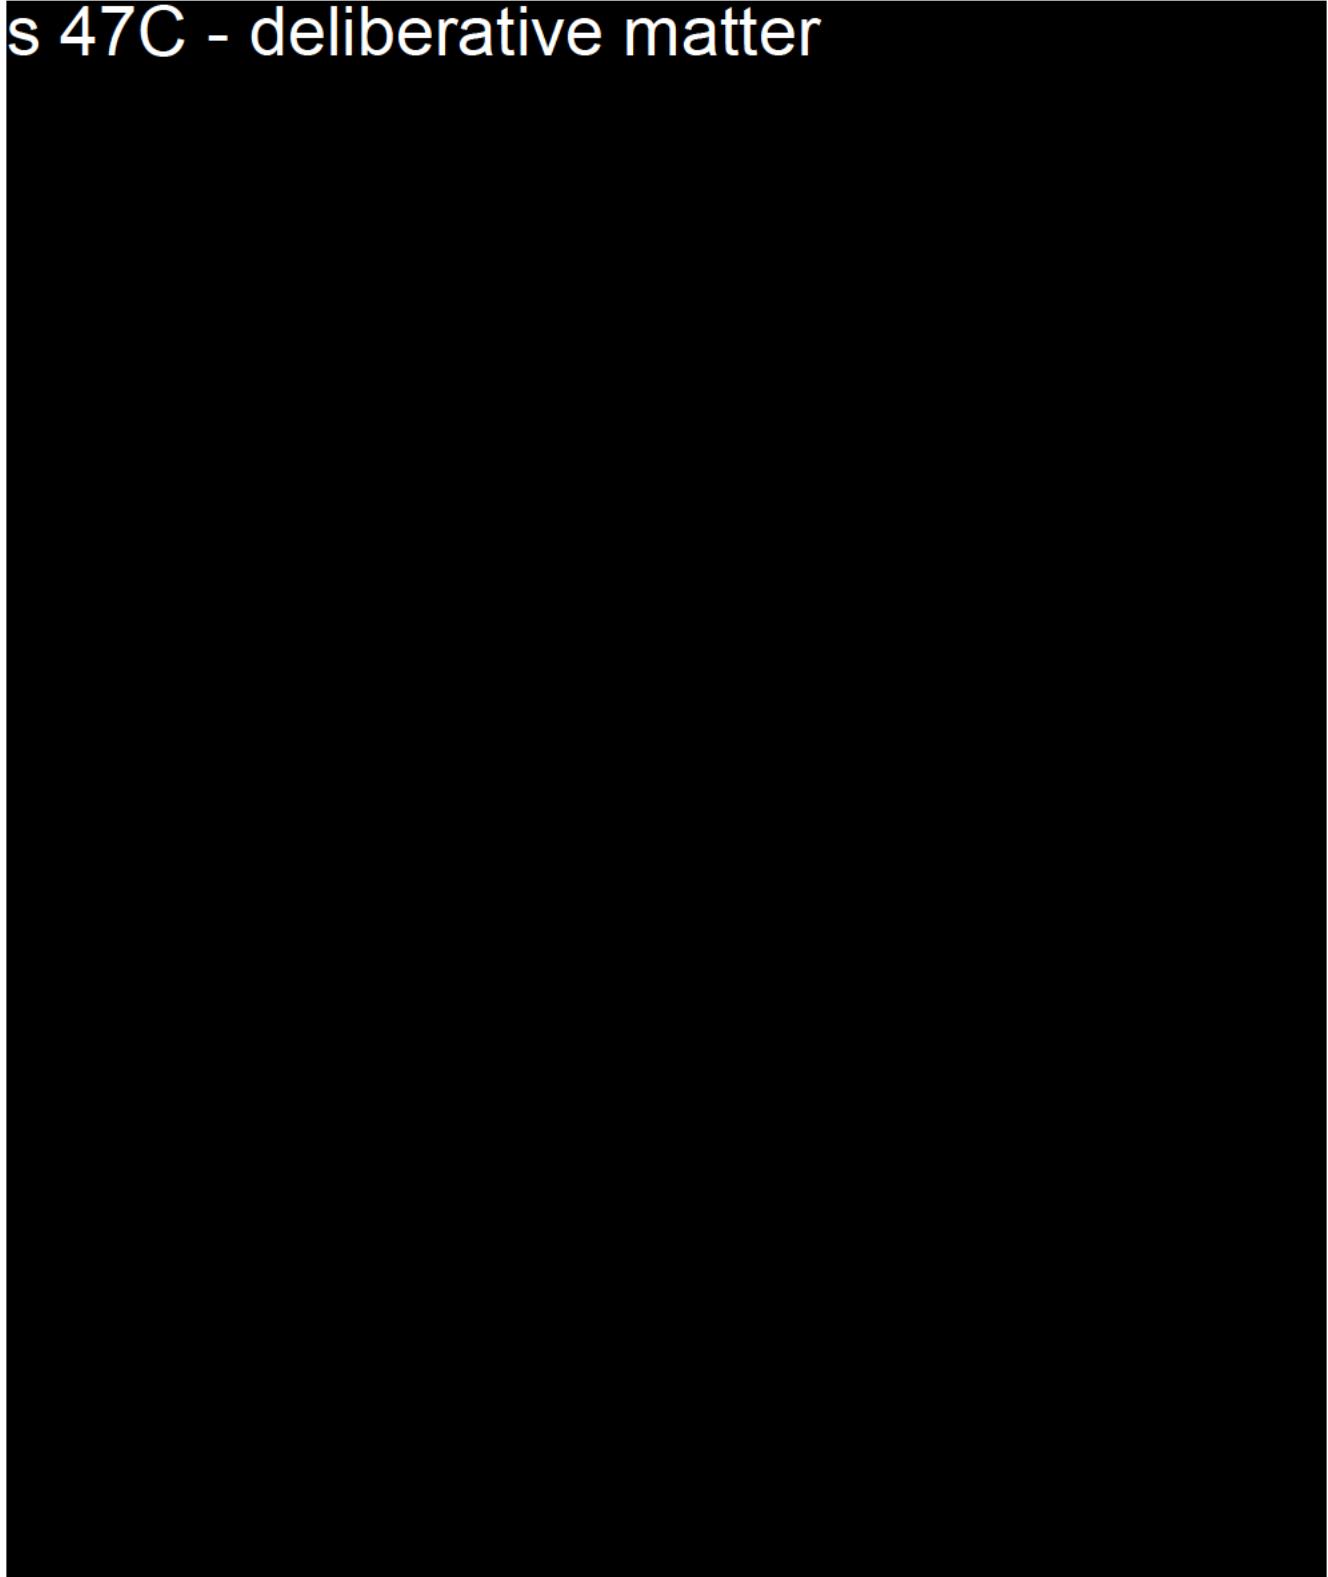

Annulus pressure management plan has been drafted. WOMP revision in part to be submitted once finalised, circa May /June.

Current operations: Back on Blacktip P3 doing more well clean up operations.

From the Operations meeting this morning.

[REDACTED] raised a concern that the MODU could move off station prior to any decision being agreed with ENI and we would be limited to the actions they could take.

Cheers
