This is [REDACTED] on Woodside Goodwin Alpha platform. My contact number is [REDACTED]. I'm reporting a dangerous occurrence in the form of an unplanned event that required the Emergency response plan to be implemented at 1450 today, Thursday, 9th of May. I initiated the emergency response plan in the form of a medevac for our potential ankle or foot injury. The IP was identified in a location on the upper decks of the platform by work members advised they had rolled their ankle and hurt their foot while stepping from one level to another. Android Pain Facility Medic was contacted and assessed by both the Medic and remotely by the Encore Woodside Dr. After consultation with the Woodside [REDACTED] Decision was to demobilise the individual for further medical assessment at Crafter Health Campus under medical escort. Image Response team was not activated. The still you remained at normal operations. Three day report will be issued. Thank you.
