UNCLASSIFIED

Hi [REDACTED]

looking in to this now and notice that the photos didn't arrive with the submission (see download receipt). Could you please resubmit?

We would like to follow this up to understand/investigate the root cause of the dropped object due to its height and weight which could have resulted in a fatality. We plan to come to your offices next Monday. I propose 10:00 am, can you please confirm time and availability?

Hello [REDACTED]

Actual drop height was 5.9m / weight 5.7 kgs.

You should have received two additional files during the same submission that contained supporting detail photo's?

Regards

[REDACTED] | HSEQ and Compliance Manager

[REDACTED] I saw that a notification for a dropped object came in last night. Can you let me know if you have any idea of the weight and height that the object dropped from?
