Hi [REDACTED]

Thank you for your time today and for the opportunity to comment on the draft Conditions for the Scarborough 4D MSS EP.

Please find attached our proposed amendments to the draft Conditions.

I have attached this as a clean document as it was challenging to read the marked up copy, let me know if you also require the market up edits for consideration.

Please let me know if you have any questions.

Thanks,

[REDACTED]

OFFICIAL

Hi [REDACTED]

Thanks for the email requesting an extension to the timeframe for providing comment on the draft Conditions for the Scarborough 4D MSS EP. Happy to grant the extension to COB 25 July 2023. However, please note that the decision is currently due 31 July 2023 and if the comments provided are complex we may need to extend the decision timeframe. As discussed in the meeting, the comments should be focused on the clarity of the Condition wording and it will make our decision finalisation process much more efficient if any new evidence relating to 11A consultation is excluded from the response, noting that this could be collected through inspection or Condition reports post EP acceptance.

Kind regards
[REDACTED]

Subject: RE: Letter - Invitation to Comment - Draft Conditions - Scarborough 4D MSS EP

Hi [REDACTED]

Woodside would like to formally request an extension until COB Tuesday 25th July to provide a response on the draft conditions associated with the Scarborough 4D MSS EP.

This is to allow a legal review to be completed and propose any amendments, if required.

Please advise whether further justification is required to support this request.

Kind Regards,

[REDACTED]

OFFICIAL

Hi [REDACTED]

The assessment of the Scarborough 4D MSS EP has substantially progressed and before we make a decision we are providing an opportunity for Woodside to provide comment on a draft set of Conditions – see attached letter. We are requesting that any comments are provided by Thursday 20 July 2023.

If you have any questions or would like to request additional time please let me know.

Regards

Attachment 1 – Draft Conditions

Consultation with First Nations groups and people

1. Prior to commencement of the activity, the titleholder must engage registered native title bodies corporate and representative Aboriginal / Torres Strait Islander bodies identified in the EP to confirm whether:
 - a. They are aware of any people, who in accordance with Indigenous tradition, may have spiritual and cultural connections to the environment that may be affected by the activity that have not yet been afforded the opportunity to provide feedback.
 - b. There is any feedback on cultural features and/or heritage values.
2. The purpose of the engagement outlined in Condition 1 is to be communicated as part of the request, and relevant persons are provided with a copy of the NOPSEMA Consultation on offshore environment plans Brochure as part of consultation.
3. If at any time, as a result of compliance with Condition 1, relevant persons must be consulted in accordance with the NOPSEMA Guideline on Consultation in the course of preparing an environment plan (GL2086).
4. At any time, prior to or during the activity, if new cultural features and/or heritage values within the environment that may be affected by the activity are identified that are not described in the EP, the titleholder must:
 - (a) Ensure the environmental impacts and risks of the activity continue to be managed to as low as reasonably practicable and an acceptable level.
 - (b) Notify NOPSEMA in writing within 7 days of these cultural features and/or heritage values of places and the potential environmental impacts and risks of the activity relevant to them.
5. The titleholder must submit a report to NOPSEMA no later than 14 days after the notification in Condition 4 which confirms the following in relation to the new cultural features and/or heritage value of places:
 - (a) The control measures that have been, or will be, adopted to ensure that the environmental impacts and risks of the activity will be reduced to as low as reasonably practicable and an acceptable level.
 - (b) The consultation undertaken with any relevant persons to develop these control measures, including:
 - i. the control measures that those persons considered as reasonably necessary to manage impacts on the cultural features and/or heritage values in accordance with Indigenous tradition; and
 - ii. the views of the relevant persons in relation to the control measures which have been, or will be, adopted.

6. At any time, prior or during the activity, the titleholder is to adopt appropriate measures in response to the claim from the Buurabalayji Thalanyji Aboriginal Corporation as to the need for collaboration with BTAC on the identification, management and protection of the Thalanyji people's cultural features of the environment that may be affected by the activity.

7. The titleholder must ensure that the proposed spotter vessel with two trained and experienced marine fauna observers on board is utilised at all times during the survey.
